CARRYING CASES

Make any device **wearable**

- Various mounting options
- Wearable add-ons
- Custom-made for each device

HOLSTERS

Keep **your hands free** when carrying your device

- Fastening and mounting options
- Durable materials
- For devices of various shapes

SCANNER FORKLIFT MOUNTS

Mount your scanners and mobile computers while using a forklift

- Made of high-quality steel
- Various design options
- With adjustable arm

RUBBER PROTECTIVE CASES

Keep **your device safe** from cracks and breaks

- Perfect fit for each device
- Easy access to key features
- Made of high quality rubber

SCREEN PROTECTORS

Protect your screen from scratches and cracks

- Available in 9 types for each device
- Additional features, e.g. privatization
- Does not affect touch screen operation

Carrying cases

Available in two material versions: natural leather or hybrid Diamond material with a rubber-like structure.

Duratis cases can be connected to an optional shoulder strap, neck strap or hand strap.

Available with optional, advanced mounting solutions: belt clip or 360 Swivel Clip or Swivel Mount Free.

Material options

Diamond

Strong hybrid material. Its texture resembles the rubber, making it easy to carry in hand.

Leather

Designed to last in difficult conditions. Durable, elegant and abrasion resistant.

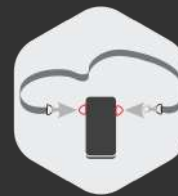

D-rings options

1 x D-ring

A single D-ring allows the device to be worn on a classic neck strap (lanyard).

2 x D-ring

Two metal rings allow the attachment of the device on the shoulder strap with two buckles.

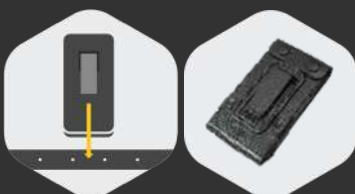

2 x D-ring + loop

This variant offers two D-rings for attaching a shoulder strap, plus a small loop that allows you to attach our universal hand strap.

Optional mounting option

Clip

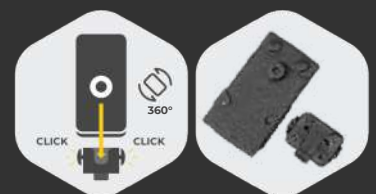

Clip mounting is the primary method of mounting the device to any belt or pocket. A simple and quick solution.

Swivel Mount Free

Swivel Mount Free allows you to attach the device to one of our wearable wrist strap. Then you can rotate the device to any position that will make your work easier.

360 Swivel Clip

This type of attachment is supplied with a belt adapter. It allows you to quickly attach the device and its free rotation on the belt.

Carrying holsters

Duratis holsters allow you to comfortably carry your device hands-free. We use super-durable materials, such as genuine Cordura, so our holsters last up to 10 times longer than similar solutions available on the market.

You can choose from several holster types:

- **Open** - for fast-paced work environments
- **Fastened** - when you bend down often or work at heights.
- **Pistol-trigger compatible** - if you work with data collectors equipped with a pistol grip

Holster types

Open holsters

Fastened holsters

Pistol trigger (large)

Pistol trigger (standard)

Forklift mounts

Our metal scanner holders allow you to quickly attach a Zebra, Honeywell or other popular brand mobile computer to the frame of a forklift. This enables faster and more efficient warehouse operations, and at the same time protects the device from falling.

Features & options

Made of durable steel

Various mounting options

With adjustable arm

Can be customized

Screen protectors

Duratis screen films protect the most delicate element of the device.

They are available in 9 technologies (types) differing in the degree of protection and additional functions, e.g.

- **Matte films** (reduction of reflections)
- **Privatizing films**
- **Antibacterial films.**

Duratis screen protectors does not affect touch screen operations.

Features & options

Available in 9 types

Perfect fit for each device
